Surveyors job function and qualifications in Italy

EGoS Workshop

2nd April 2016

Technical Chamber of Thessaloniki

In Italy

- we have more than 110,000 surveyors;
- they are all registered to the provincial professional orders;
- and from a national point of view they are all regulated by CNGeGL

The Consiglio Nazionale Geometri e Geometri Laureati(CNGeGL):

- was established with the royal decree of 11th February 1929, n. 274;
- it represents the central self-governing body of the profession of surveyors ;

It is headquartered in Roma and
it works under the control of the
Ministry of Justice

Composition of CNGeGL:

- 11 board members elected by the 110 Provincial Boards;
- the term of office of the board members is of 5 years and they can be re-elected

Vice
President

President

General
Secretary

Council of Presidents

The Legal System relies on CNGeGL
representative, consultative and
jurisdictional functions.

**Consiglio Nazionale
Geometri e Geometri Laureati**

Italy – Maria Grazia Scorza

CNGeGL

- a no-profit public body,
- it has an advisory role to the Government and Parliament,
- it presents proposals for improving the professional legislation;

It sends opinions and directives on the profession, ethics and training to even out the activities of the 110 provincial boards of Surveyors;

**Consiglio Nazionale
Geometri e Geometri Laureati**

Italy – Maria Grazia Scorza

The Council's decisions are valid when the proposals obtained an absolute majority of the votes;

National Organization:

- In each of the 110 Italian Provinces there is a provincial board of Surveyors;
- The activity of the Provincial Boards is regulated by law under the control of the Ministry of Justice;

The Provincial Boards:

- have to update the official registers;
- decide on the ethical behaviors of the registered surveyors;
- guarantee the participation to the continuing professional development courses;
- act for the protection of the qualification and of the profession.

CNGeGL signes agreements with national and local authorities:

- to promote the profession of Surveyors for improving their activity and results ;
- to improve the technical and cultural skills through the continuing professional development;
- to ensure the quality of the professional services and the protection of the client;
- to ensure a growing recognition on behalf of the institutions;

CNGeGL has competence for the special jurisdiction in professional matters through the pronouncement of second-degree sentences:

- ✓ on appeal of the registered members against disciplinary measures taken by the Provincial Disciplines Boards in professional ethics issues;
- ✓ on the registration and/or cancellation from the Official Register adopted by the Provincial Boards;
- ✓ on complaints regarding the election of the Councils of the Provincial Boards.

The activities of the Provincial Colleges and of CNGeGL is financed by fees paid by the registered members.

Each board establishes the annual registration fee in relation to the necessary expenses for the keeping of the Official Register, the performance of its facilities and the fixed contribution for CNGeGL.

The costs related to individual services (participation in training courses, certification, etc.) are paid to the College by the interested individual members.

CNGeGL is member of important
European and International
Organizations as

FIG, CLGE, AEEBC, TEGoVA,
IVSC, IPMSC and last but not least
EGoS

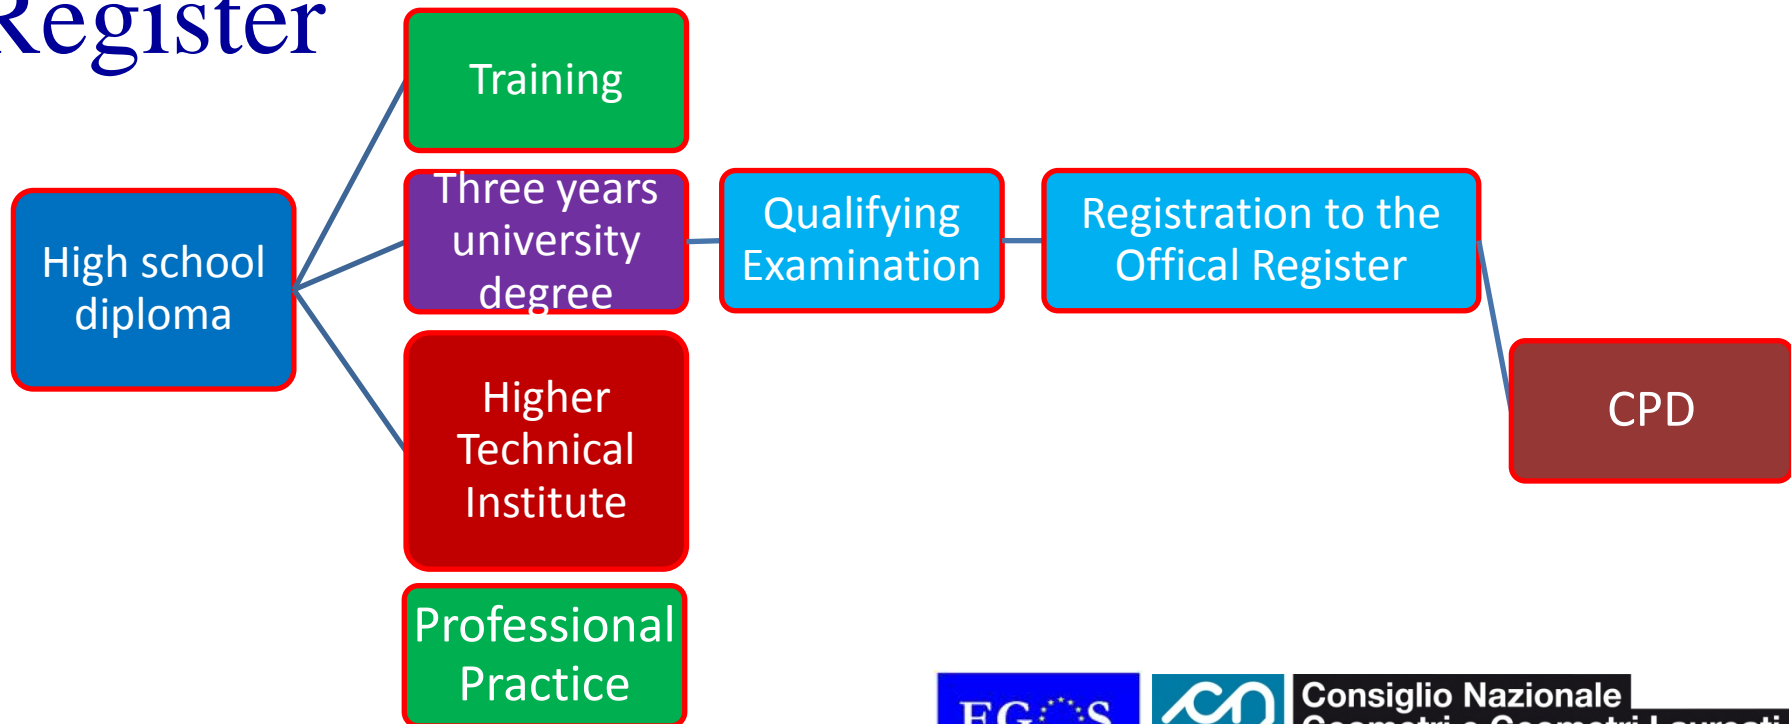

Consiglio Nazionale
Geometri e Geometri Laureati

Italy – Maria Grazia Scorza
